

Rover Co. and Kennel-Gear

The Secure Feeding Solution for your Rover Enclosure

KENNEL-GEAR...INNOVATIVE PET PRODUCTS FOR HOME AND BUSINESS

Innovation for better animal care is the single focus behind the development of the Kennel-Gear product line.

The Kennel-Gear line of high quality, health inspired products along with the Rover Enclosure product line make the caring and treating of animal simple, safe, clean and very convenient. Our easy to install design allows you to attach your bowl directly to your Rover Enclosure. Simply attach the Back plate and Surface Mount with the supplied thumbscrews then easily slide your pets bowl into the mount. Once attached the bowl is locked in place providing a secure feeding area - no more bowls tipping over, getting played with, or being drag around. When finished, simply release the paw proof lever and remove the bowl. Dishwasher safe for easy cleaning.

To order your Kennel-Gear bowl system please call (800) 738-5004 or email sales@rpmus.com.
